

# Insight Workbenches: Turn Insights Into Action

Dynamic Reporting to Drive Decision-Making

Insight Workbenches are your gateway to dynamic, real-time data insights. Designed to empower decision-makers, these interactive, real-time visualizations bring clarity to complexity, helping you monitor, manage, and master your risk landscape with confidence.

**See Beyond the Data:** Dynamic visualizations that highlight trends, priorities, and actionable insights.

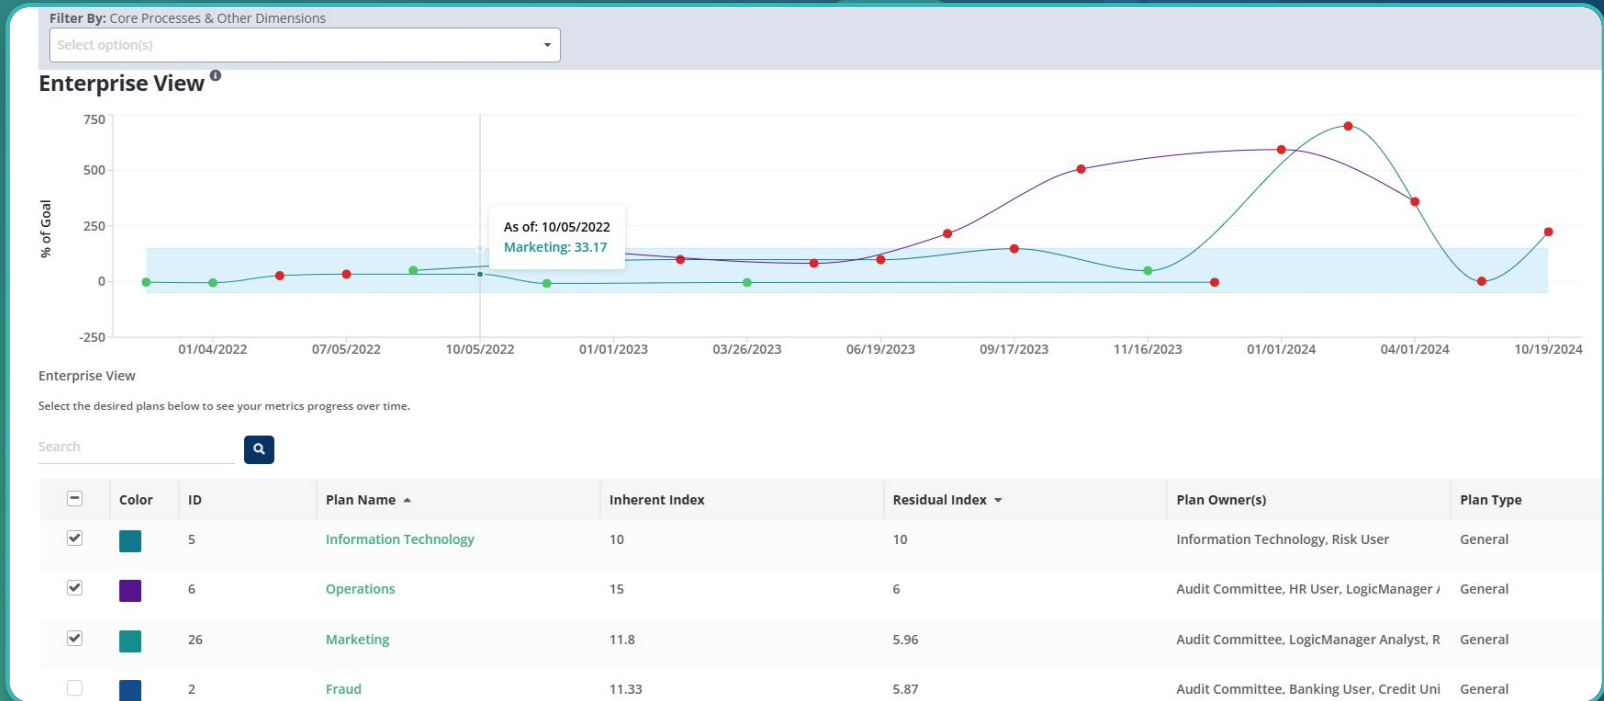

**Foster Collaboration and Trust:** Communicate complex information to build stakeholder confidence and align teams.

**Turn Insights into Action:** Leverage LogicManager's advanced tools to transform data into meaningful decisions that strengthen your organization.

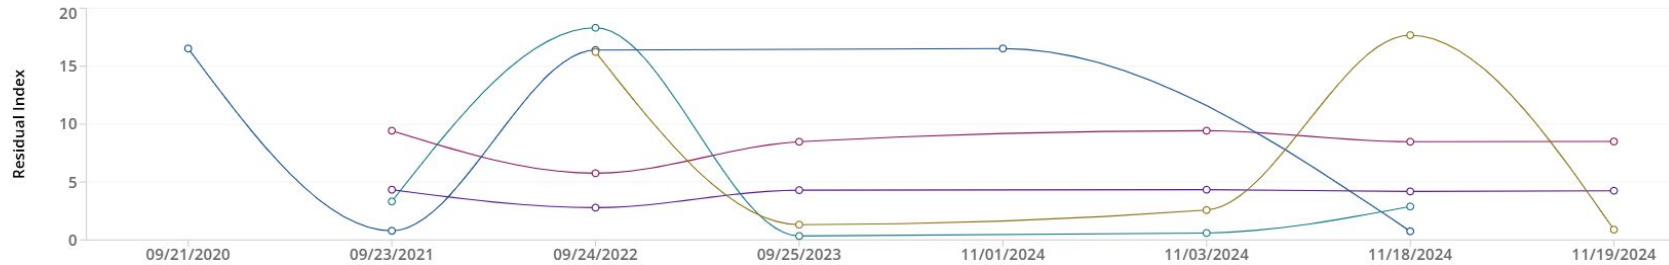

# Metrics Progress

Stay ahead of the curve. This workbench is your go-to for tracking the effectiveness of risk metrics over time. Whether you're a risk analyst, compliance officer, or business leader, you'll uncover emerging risks and trends at a glance. Make proactive choices to allocate resources wisely and sharpen your strategies.

# Assessment Progress

Own your risk assessments like never before. For risk managers, auditors, and compliance teams, this workbench spotlights residual risk levels and assessment progress. It's your personal compass, guiding you to prioritize what matters most and ensure alignment with your organization's risk tolerance.

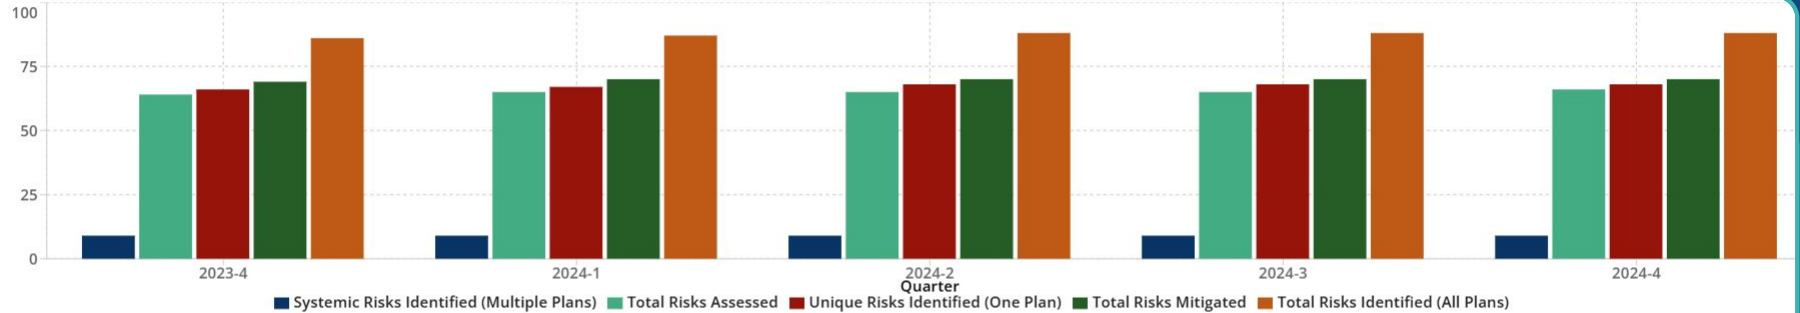

Select the desired plans below to see your assessment progress over time.

<input type="checkbox"/>	Color	ID ^	Plan Name	Inherent Index	Residual Index
<input checked="" type="checkbox"/>		4	Accounts Payable	8.5	4.25
<input checked="" type="checkbox"/>		5	Human Resources	3.05	0.89
<input checked="" type="checkbox"/>		6	Information Security	19.62	17.68
<input checked="" type="checkbox"/>		7	Marketing	2.53	0.64
<input checked="" type="checkbox"/>		8	Operations	14.05	9.55

# ERM Progress

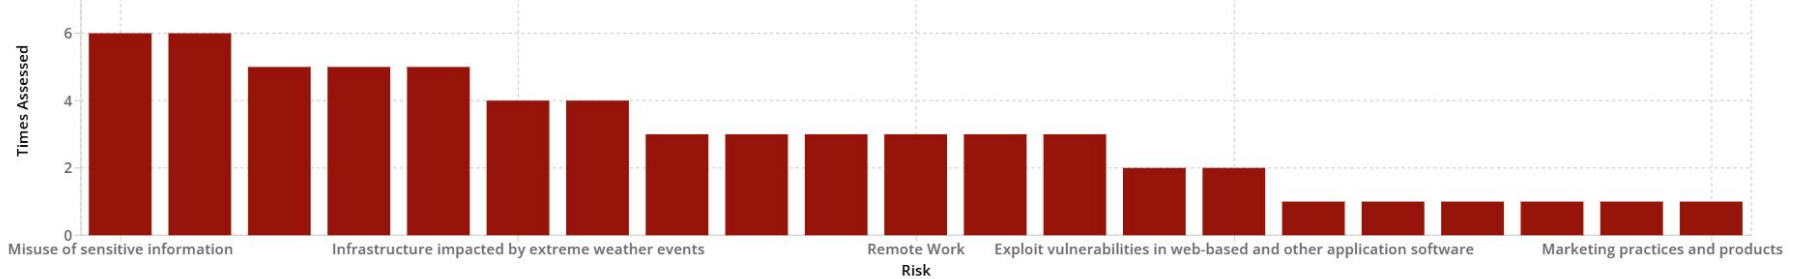

Bridge the gaps in your risk management journey. This workbench offers strategic insight for enterprise risk managers, senior executives, and planners. Understand how assessment and mitigation gaps are closing over time, and stay on course for continuous improvement and long-term resilience.

		Systemic			Assessed			Unique			Mitigated			Total Identified

# Root Cause

The Root Cause Insight Workbench is essential for risk mitigation teams, quality assurance professionals, and operational managers who need to identify and address the underlying causes of risk events. It aggregates impact, likelihood, and assurance data, helping these roles prioritize risk mitigation efforts and strengthen organizational resilience.

# Resources

The Resources Insight Workbench is particularly useful for procurement officers, resource managers, and strategic planners who need to assess and compare business resources based on risk exposure. It provides a comprehensive view of resource-related risks, enabling informed decision-making and efficient resource allocation.
